Grades 10 – 12
CAPS-approved Catalogue
Welcome

At Pearson, we believe that learner performance can be improved when both teachers and learners are equipped with quality learning resources filled with relevant and engaging content.

We are proud to present the Pearson South Africa Grade 10 – 12 catalogue. Our Grade 10 – 12 portfolio brings you the widest range of CAPS-approved titles in South Africa. We aim to support learners along their learning journey as they prepare for their final matric exams and acquire the skills and knowledge to help them progress beyond school.

To support you in the classroom, we continue our strong tradition of excellence in teacher training. These teacher-training workshops are run across the country by our dedicated and passionate team of trainers whom are trained teachers. If you require more information about our workshops, please contact your local Pearson office.

Wishing you all the best for the year ahead.

About Pearson

At Pearson, home of Maskew Miller Longman and Heinemann, we’re here to help people make progress in their lives through learning.

Learning isn’t a destination, starting and stopping at the classroom door. It’s a never-ending road of discovery, challenge, inspiration, and wonder.

For many people, learning is the route to a job to support their family or the skills to help them progress in their career. For others, it’s simply a passion for discovery.

Whether it’s in the classroom, at home, or in the workplace, learning is the key to improving our life chances.

That’s why, at Pearson, we provide trusted CAPS-approved textbooks, digital and supplementary resources, services and support, and professional development courses, to make learning more engaging and effective.

We create content in all 11 official languages and have a footprint in all 9 provinces. Our unique insight and local expertise comes from our long history of working closely with the Department of Education, teachers, learners, researchers, authors and thought leaders.

We have a clear and simple set of values – in everything we do, we inspire to be brave, imaginative, decent and accountable. These values describe what is important to all of us, and guide us to do what is right for the world around us.

Every day all over South Africa, our products and services help learning flourish. Because wherever learning flourishes, so do people.

Our strategic partners

Our dedication to creating positive social impact shapes everything we do, from our products and strategies to the way we engage with our millions of learners, partners, and communities around the world.

We are fortunate to have found B-BBEE partners who share our passion and commitment to education and will enable us to continue to positively impact many thousands of learners across South Africa.

Sphere Holdings is excited to be part of an enterprise whose key focus is on improving knowledge and education in South Africa. The relationship with Pearson South Africa aligns this imperative with their passion for delivering meaningful interventions for change.

Sphere Holdings (Pty) Ltd
• Itumeleng Kgaboelele
• Marang Denalane
Sphere Holdings was founded in 2003 and has a transformative business model that creates wealth that uplifts by putting real money back into the community with a focus on education. Since inception, about 14% of Sphere has been owned by four community charities with a focus on education.

Pearson Marang Education Trust
Through research, engagement and development at the coalface of education, the school and the classroom, the Pearson Marang Education Trust has focused on best practice as an approach to improving the quality of teaching, learning and school management in South Africa. The Trust brings deep knowledge of school improvement and performance into this dynamic partnership.

“We look forward to working with Pearson to adapt their unparalleled global education expertise, content and services to meet the needs of South African learners, teachers, education departments and schools.”

Marang Denalane, Sphere director and Pearson SA board member
Our commitment to learning

The challenge for education is not just about providing access, but also ensuring progress.

For Pearson, providing great products and services is just the beginning. It’s important for us to know that they are working. Everything we do is driven by its measurable impact on learning outcomes. We call this efficacy.

In 2013, we announced our commitment to report publicly on our progress and make the results transparent. We were the first education company to make this commitment.

By focusing on the efficacy of our products and services, we can see exactly how effective they are at producing successful outcomes for learners. This involves continually measuring, assessing, and improving everything we do and putting the learner at the heart of our learning solutions. By questioning everything, we ensure that we’re always delivering better results.

We work with educators and learners to continually improve our products and services, ensuring they have the most positive impact on learning. In this way, we’re able to deliver better education to more people – whatever, whenever, wherever, and however they choose.

Read some of our efficacy reports to learn more about our products and their impact on pearson.com or classroomolutions.co.za

For us, the future’s already begun

It’s a future full of powerful challenges and exciting opportunities. While we’re dedicated to making change happen, we’re well aware that we can’t do it alone.

So we collaborate with employers, teachers and educational experts, entrepreneurs, and other organisations to gain in-depth global perspectives and develop pioneering ideas that will help solve the many educational challenges facing the world.

Working with you enables us to make even bigger changes happen as we collaborate to address some of the biggest education challenges.

One of our initiatives is Project Literacy, a campaign to bring the power of words to everyone so that by 2030, every child born can grow up to be a literate adult. Learn more at projectliteracy.com

Our dedication to creating positive social impact shapes everything we do, from our products and strategies to the way we engage with our millions of learners, partners, and communities around the world.
Our Brands
Platinum is the perfect partner to deliver exceptional results. The series has superior illustrations for clearer understanding and a diverse range of activities for practice, along with excellent teacher support.

- **Superior** content written by expert authors.
- **Superior** CAPS curriculum coverage.
- **Superior** illustrations and activities improve results and motivate learners.
- **Superior** teacher support saves time and makes teaching easy.
- **Superior** quality = exam success.

*Platinum* components include Learner’s Books, Teacher’s Guides, Workbooks, and **FREE** Control Test Books and a Question Bank CD (grade-specific).
I have found *Platinum* to be user-friendly for the learner as well as the teacher. I like that there are plenty of examples, relevant and challenging activities, and exam questions and answers. The learners find the colourful pictures and examples to reflect everyday life, and the content easy to follow. I have experienced a great improvement in the results of my learners.

Buyisiwe Nkomo, teacher, Magadla Senior Secondary School, Eastern Cape
Focus has been carefully developed and tested in classrooms to deliver successful teaching and learning support. The series develops learners' skills and grows their exam confidence. It has a variety of stimulating activities, uses reader-friendly language and provides balanced curriculum coverage.

Fully CAPS-compliant.
Opportunities for exam practice and assessment.
Complete programme of assessment provided.
Used and tested in schools throughout South Africa.
Supports and engages learners for success.

The Focus series is also available in Afrikaans as Verken
Learners like *Focus* as the content is easier to understand and a summary of the content is provided after each topic. As a teacher, I like the additional activities and answers that assist me in my teaching. I have seen an improvement of results from 80% to 90% in my class.

**Unit 5: Blood vessels**

5.1 Arteries

Arteries carry blood away from the heart. The walls of a vein consist of three layers: the intima, the media, and the adventitia. Arteries carry blood away from the heart, and their walls are relatively thin, allowing them to stretch easily. The blood travels through the arteries under high pressure. The blood vessel walls have the ability to regulate the diameter of the vessel, ensuring that blood flow is smooth and consistent. Arteries are characterized by their smooth muscle layers and lack of valves.

5.2 Capillaries

Capillaries are the smallest blood vessels in the body. They allow for the exchange of gases and nutrients between the blood and tissue. The capillaries are lined with endothelial cells, which form a permeable barrier between the blood and the tissue fluid.

5.3 Veins

Veins carry blood back to the heart. The walls of veins consist of three layers: the intima, the media, and the adventitia. Veins carry blood back to the heart, and their walls are thicker and more elastic than the arteries. The blood vessel walls have the ability to regulate the diameter of the vessel, ensuring that blood flow is smooth and consistent. Veins are characterized by their thick muscle layers and valves.

**Fact box**

- Blood vessels are classified into two main categories: arteries and veins.
- Arteries carry oxygenated blood away from the heart, while veins carry deoxygenated blood back to the heart.
- The blood vessels are responsible for the delivery of oxygen and nutrients to the tissues and the removal of waste products from the body.
